1 face fixture

1 face fixture,
maximum pitch of 50°

1 top fixture

2 gearbox with eye for crank handle

during extension

3 bionic tendon made of high-tech fi-
bres for optimum power transference4 special water drainage method and
cover pocket hidden in the front
profile5 aluminium coverboard ¹⁾

1) optional configuration

Product characteristics

Description

- open folding-arm awning with innovative arm technology suitable for shading large areas.

Special features

- awning with an extremely torsion-resistant, round torque bar which gives a certain degree of flexibility when choosing the fixture points
- round, fluid transition from the round torque bar to the round roller tube
- ingenious pitch adjustment – the angle of the awning is adjusted via the fixture bracket

Dimensions

- cassette in the standard version: depth 236 mm, height 216 mm
- single unit: minimum width 167 cm at the smallest projection of 150 cm, maximum width 700 cm at the largest projection of 400 cm
- also available as a coupled unit

Roller tube and lateral bearings

- round roller tube Ø 85 mm with keyway, galvanised steel – excellent stability, ensures near perfect cover performance even at the largest widths
- the roller support bracket is made of die-cast aluminium, powder coated, with integrated hidden cable canal when motor driven

Awning profiles

- extruded aluminium, in façade quality, powder coated
- circular front profile with integrated gutter
- round steel torque bar Ø 50 mm, galvanised both inside and out, powder coated

Folding arms

- profiles in extruded aluminium, in façade quality, powder coated
- moving parts made of drop-forged aluminium – the arms are therefore extremely fracture resistant
- pivot bolts in stainless steel run in Teflon-coated bronze bushes – practically maintenance free, virtually silent and extremely hard-wearing
- power transference via the innovative Bionic tendon at the elbow joint, made of high tensile, hightech fibres – low in friction, noiseless, insensitive to corrosion and UV resistant, independently tested by the Fraunhofer Institute

Side caps

- the roller support bracket insert sections are made of high-quality plastic, powder coated or in a polished chrome finish
- the front profile end caps are made of high-quality plastic, powder coated or in polished chrome, with drainage holes

Fixture brackets

- face fixture, top fixture, eaves fixture
- extruded aluminium, powder coated
- pitch range 5°–50°, infinitely adjustable
- spacer plates, stand-off brackets and other accessories are available

Frame and end cap colours

markilux frame colours without surcharge

traffic white RAL 9016

metallic aluminium RAL 9006

grey brown, similar to RAL 8019

off-white textured finish, 5233 ¹⁾

stone grey metallic, 5215 ¹⁾

anthracite metallic, 5204 ¹⁾

Havana brown textured finish, 5229 ¹⁾

15

off-white textured finish, 5233 ¹⁾
insert and front profile end cap
in polished chrome

stone grey metallic, 5215 ¹⁾
insert and front profile end cap
in polished chrome

anthracite metallic, 5204 ¹⁾
insert and front profile end cap
in polished chrome

Combination options – possible in any frame colour.

Non-standard powder-coated finish

Bespoke frame colours at a surcharge – matt, metallic and pearl finishes as well as other colour ranges (DB, Tiger etc.) on request. All frame colours are available at a surcharge with enhanced corrosion protection.

1) textured finish

Colours may differ slightly from those depicted in both hue and finish.
