

Cassette awning

markilux 1710

The classic torque bar awning with a designer look.

The droplet-shaped cover cassette lends it a harmonious appearance.

Product Characteristics

Wind resistance class 2
Beaufort 5 → 7.5–10.4 m/s → 28–37 km/h → 17–23 mph

1 face fixture

1 face fixture, maximum pitch of 25°

1 top fixture

1 manual operation

2 during extension

3 bionic tendon made of high-tech fibres for optimum power transference

3 LED Lines in the folding arms ¹⁾

4 unique water drainage system and hidden cover pocket in the front profile

5 wall sealing profile, up to a pitch of 25° ¹⁾

1) Optional accessories

Product Characteristics

Description

- extremely robust construction, ideally suited for shading large areas

Special features

- awning with a highly torsion-resistant, round torque bar which gives a certain degree of flexibility when choosing the fixture points
- round, fluid transition from the round torque bar to the round cassette
- optional wireless io-dimmable LED Line lighting in the folding arms which provides uniform illumination under the awning
- cover cassette with arms in front, covered and protected by the valance when closed – even when fully extended, the roller tube is completely protected

Dimensions

- cassette in the standard version: depth 236 mm, height 217 mm
- single unit: minimum width 167 cm at the smallest projection of 150 cm, maximum width 700 cm at the largest projection of 350 cm
- also available as a coupled unit

roller tube and lateral bearings

- round roller tube Ø 85 mm with keyway, galvanised steel – excellent stability, ensures near perfect cover performance even at the largest widths
- roller support bracket made of die-cast aluminium, powder-coated, with integrated, concealed cable duct when motor driven

Awning profiles

- extruded aluminium, in façade quality, powder coated
- cassette in two parts
- circular front profile with integrated gutter
- round torque bar Ø 50 mm, galvanised both inside and out, powder coated

Folding arms

- profiles in extruded aluminium, in façade quality, powder coated
- moving parts made of drop-forged aluminium – the arms are therefore extremely fracture resistant
- pivot bolts in stainless steel run in Teflon-coated bronze bushes - practically maintenance free, virtually silent and extremely hard wearing
- power transference via the innovative bionic tendon at the elbow joint, made of high tensile, hightech fibres – low in friction, noiseless, impervious to corrosion and UV resistant, independently tested by the Fraunhofer Institute
- Articulated arms with LED Line option as standard with markilux Bionic tendon at the elbow joint

End caps

- the roller support bracket insert sections are made of high-quality plastic, powder coated or in a polished chrome finish
- the front profile end caps are made of high-quality plastic, powder-coated or in a polished chrome finish, with water drainage spouts

Fixture brackets

- face fixture, top fixture, eaves fixture
- extruded aluminium, powder coated
- pitch range 5°–25°, infinitely adjustable
- spacer plates, stand-off brackets and other accessories are available

anthracite metallic, 5204 ¹⁾
insert and front profile end cap in
polished chrome

Combination options – possible in any frame colour.

Non-standard powder-coated finish

Bespoke frame colours incur a surcharge – matt, metallic, finely textured and pearl finishes as well as other colour ranges (DB, Tiger etc.) on request. All frame colours are available at a surcharge with enhanced corrosion protection.

Colours may differ slightly from those depicted in both hue and finish.

¹⁾ textured finish

eaves fixture bracket 90 mm plate: 150 mm	71612.
eaves fixture bracket 90 mm plate: 270 mm	71659.
angle and plate for eaves fixture machine finish aluminium, plate 500 mm	716620
spreader plate 260 × 60 × 12 mm for eaves fixture bracket	75383.

Lighting options

LED Lines in the folding arms

After fitting the awning, the E-box is to be attached on the drive side to the torque bar between the folding arms – it is attached on the bearing side only when the awning has a shadeplus with motor. For coupled awnings, the E-box must be attached in the area near the coupling point.

Power is supplied to the E-box through a cable duct attached to the torque bar.

Technical specification

operating voltage	230 V, 50 Hz
power output per metre	8 W / metre
number of LEDs per metre	150 LEDs / metre
light source	LED (12 V)
light temperature	warm white
IP protection class	IP 67
service life	ca. 15.000 h

- 1 = LED Line in the folding arms
- 2 = E-Box bracket (76972.)
- 3 = additional E-Box
