

The best under the sun.

Create the most alluring shade in the world.

Designer Awnings for Patio and Balcony

markilux
The best under the sun

A photograph of a hand holding a white architectural beam against a red background. The hand is positioned at the top right, gripping the beam. The beam extends diagonally across the frame. The background is a solid, vibrant red, with some dark, out-of-focus foliage visible on the left side. The overall composition is clean and modern, emphasizing the contrast between the white beam and the red background.

Put only the best between you and the sun.
Create the most alluring shade in the world.

markilux

There is always a clear line to the design of our awnings which usually ends in a reddot.

Outdoor living

Hours of relaxation and recuperation or valuable time well spent with your family and friends – these are the precious moments in which you cherish your outdoor lifestyle. Designer awnings from markilux not only provide shade, they open up new opportunities to enjoy life. They provide protection on hot days and make for a cosy ambience long after the sun has set. In choosing a markilux designer awning, you are opting for the very best quality – “Made in Germany” – and for endless hours of light-hearted fun outdoors.

markilux designer awnings have received a multitude of awards:

Quality has its merits.
Usually the very best ones.

markilux MX-1

Even at first glance, the markilux MX-1 makes an immediate impact with its unique mix of shape and functionality. Retracted, the tapered full cassette with a depth of 62 cm makes a big impression on the observer as a canopy that protects your awning from the effects of the weather. When extended it shows its true magnitude. This designer awning is a pioneer due to the numerous technological innovations it incorporates and its multi-award-winning design. The markilux MX-1 creates an unparalleled atmosphere at any time of the day, which will charm you again and again, today and in the future.

Delivering beautiful protection, any time of year.

markilux MX-1 compact

The petite markilux MX-1 with all the technological innovations and with the variety of features typical of markilux. It also offers you spectacular ambient lighting, brilliant LED options in the cassette and front profile as well as every option to influence the colour design. The markilux MX-1 compact makes your favourite spot in the garden particularly enticing. It enhances the appearance of a building with its modern, minimalist architectural design, literally providing it with beautiful protection.

LED Spots in the underside of the cassette

LED Spots in the front profile

More than a decorative highlight. The markilux 6000 lights up your favourite spot in an elegant, flexible and energy-efficient manner, just the way you want it.

MX_6000

The markilux shadeplus

The vertical shading in the front profile adds the finishing touch and provides protection from the sun and prying eyes. On request with a hard-wired / radio-controlled motor.

Various decorative elements

Whether you choose the end cap insert in stainless steel mesh, the end cap trim and frame in a chrome finish or all deliberately uniform in the awning colour of your choice – you can design your very own personalised top model by markilux.

No false modesty: Germany's top model.

markilux 6000

A designer awning with many faces – each one more beautiful than the next. Create your own personal and unique model from a wide range of awning frame colours, decorative elements and available accessories. With its remarkable dimensions and technical specification, the markilux 6000 makes a lasting impression. It also cuts a dashing figure as well. Invite Germany's top model into your home.

MX_5010

At home in every family. At home on your patio.

markilux 5010

The markilux 5010 can be effortlessly extended, either at the touch of a button or via smart control by way of an app, and will be a hit with all the family. On top of that, as a coupled unit with up to three awnings installed next to one another, friends and guests will also be able to find a cosy spot in the generous shade this awning offers. This all-rounder encourages relaxed get-togethers and turns any hour spent outdoors into a happy one.

Polished chrome fittings

Optionally available as an eye-catcher: the chrome-plated end caps fitted to the front profile. On request, with a wall sealing profile which drains rain away over the front of the awning.

The markilux shadeplus

Enjoy relaxing on the patio even when the sun is low in the sky.

For everyone who loves all-round beauty.

markilux 970

The markilux 970 exudes the urban lifestyle with confidence. Its neat and slim appearance makes it the ideal model for those who love the simplicity of elegance. Lighting, numerous styling options and the varying front panel finishes lend that individual something to the markilux 970. All in all – simply because of its clean lines and straightforward design – this awning is an all round performer.

Variety in design

The colours of the cassette and front panel can be freely combined. There are three additional anodised, accentuated colours available for the front profile: silver, bronze and black.

The markilux shadeplus

For more protection from prying eyes and glare: the optional vertical blind will captivate you.

LED lighting

LED Spots attached to or LED Line in the cassette make for a stylish ambience at dusk and during the evening.

MX_3

The awning with both: elegant curves and clean lines.

markilux MX-3

Shapely curves, clean lines, a fascinating colour spectrum – these are the defining features of the markilux MX-3. The colour choice of the all-round styling panel offers a unique customisation option and makes the hearts of patio and balcony owners beat faster. When closed, the awning makes a neat and smart impression with its harmonious appearance, and when opened it fully reveals its technical superiority.

Clean lines. All round.

If you like shapely curves in combination with a straightforward design, you will love the markilux MX-3.

The new light in the awning sky

The best spot under the sun – even in the evening.
Ideal for the most enjoyable hours outdoors.

Colour and satisfaction unlimited

The markilux MX-3 takes the changing times into account. Not only with its trend-setting design but in particular with the option of personalising the colour. The standard markilux awning frame colours – and eight additional accentuated colours for the all-round styling panel – can be combined at will without surcharge and are available with a recommended, colour-coordinated awning cover on request. For even more individuality, the frame colour and cover can be selected from their respective RAL colour swatches.

Perfection. All round.

Whether by way of ambient lighting provided by an LED Line or accentuated via directional LED Spots – all the outstanding highlights can be found in the show-room of your specialist dealer and at markilux.com

Creates a carefree ambience.

markilux 990

Small, but impressive! You will be surprised how much technological sophistication there is in this 125 mm high cassette. The folding arms and awning cover disappear into its compact construction with the U-shaped front profile. An impressive angle of pitch of up to 70 degrees when top fixing make this awning best suited for smaller patios and balconies. Thanks to these advantages you can easily spend many hours relaxing in the most beautiful shade.

End cap insert in polished chrome

That little something extra for your markilux 990.

Wall sealing profile

The slim aluminium profile in the same colour as the awning closes the gap between the awning and the wall, allowing rain to be discreetly drained off the awning.

MX_3300

Angular design

Precise recess installation will make the markilux 3300 blend perfectly into its structural surroundings.

High impact.
Low maintenance.

markilux 3300

Can an awning be merged visually into the architecture of a house? The markilux 3300 proves that it can. Depending on the structural situation, this designer awning, with its smooth front profile, disappears completely into a wall or precisely into a recess. When extended, it comes into its own with dimensions of up to 700 × 400 cm. And you can shade even larger areas by coupling up to three single awnings together. Discover how practical the markilux 3300 can be, and make this awning a big hit in your home.

Great performance. Beautiful detail.

markilux 1710

The markilux 1710 interprets the classic awning shape in a contemporary manner. The conspicuously round torque bar merges organically with the round cassette to form an elegant design feature. Due to its shape and the timelessly beautiful decorative features made from polished chrome, the markilux 1710 will suit almost any patio.

Polished chrome fittings

Side caps matching the awning colour or deliberately emphasised in finely polished chrome. This awning can simply wear anything.

markilux 1710 stretch

For great performance on narrow patios, balconies and in recesses: thanks to the two crossover arms even awnings with a narrow width can extend considerably further.

German
Design Award
NOMINEE 2014

reddot design award
winner 2012

Good technology
is about putting effort
into saving effort.

Semi-cassettes | Open awnings | Wind protection and extra privacy

One of the most beautiful. Far and wide.

markilux 1600

This awning won the IF product design award for its harmonious, semi-circular design. And still looks unique when it's fully extended. As a semi-cassette awning, the markilux 1600 is open at the bottom. The top cover profile adapts itself to the angle of pitch of the awning and closes completely flush with the front profile when retracted, which protects the cover safely from rain. Take a look round your neighbourhood: your awning is probably the most beautiful far and wide.

Polished chrome fittings

Give extra dash to the design language of your markilux 1600 – on the front profile and support tube.

The markilux shadeplus

Simply block out low-lying sun and prying eyes with the additional vertical blind in the front profile of the markilux 1600.

honourable mention 2009

Valance

This additional decorative finish to the front profile lends the open balcony awning individual charm.

MX_930

Showing a tendency towards perfection. Moving. Differently.

markilux 930

This awning moves differently from the rest, because as you retract the markilux 930, the awning pivots into a horizontal position and merges into the ceiling.

When extended, the angle of pitch can be set at up to 80 degrees – so if required, the awning can pivot almost to the vertical. The versatile markilux 930 is perfect for all balconies and eaves that require no additional protection of the awning cover or technology. Your new shading device bows to the sun – allowing you to enjoy being outside in the evening even when the sun is low in the sky.

Pivoting mechanism

The just 122 mm high awning frame disappears discreetly under the soffit when retracted. Only during the extension process does the markilux 930 pivot into the desired angle.

Fully open. Still magnificent.

markilux 1700

Whenever you would like to enjoy life outdoors, the open design of the markilux 1700 will create comfortable shading on your patio or balcony. Its organic design is elegant and timeless, and thanks to the stable torque bar, it opens up the option of connecting up to three awnings together, making it possible to shade large areas without any problem. Enjoy the pleasant atmosphere this much openness brings.

markilux 1700 stretch

Available for narrow recesses and openings, with two crossover folding arms providing greater projection than width.

Polished chrome fittings

Both the open markilux 1700 and its closed counterpart, the markilux 1710, can be embellished with polished chrome end caps and inserts on request.

The markilux shadeplus

The additional vertical blind integrated into the front profile simply blocks out low-lying sun and the glances of inquisitive neighbours.

For all those who have grandiose plans even if it is windy and wet.

markilux pergola

The markilux pergola ranks top when it comes to solar and wet weather protection. The awning system on slender posts and lateral guide tracks provides generous shading with an extension of up to 6 metres. The markilux pergola defies wind and weather up to Beaufort wind force 6 (wind resistance class 3). You can make your favourite place outdoors your very own with a markilux shadeplus, as well as a multitude of lighting options and post variants. No matter how strong the sun shines or the wind blows, with your markilux pergola you can enjoy life outdoors at any time.

Coupled awning

For all those who want even more shade: up to five single markilux pergola units can be joined side by side.

Closed full cassette system

The cover disappears completely inside the cassette and is ideally protected. If anything can be even more impressive than the appearance of the awning, it is the way the markilux pergola functions faultlessly.

markilux tracfix

One of markilux's many sophisticated features: the lateral cover guidance system that leaves no gap between the cover and guide track. Combines a more attractive overall appearance with better wind stability.

The markilux shadeplus

Blocks out glare from the sun and prying eyes in an instant.

An “all-round” achievement

The square, compact cassette protects the awning cover all round.

mx _ pergola compact

A certainty. Anywhere. For anyone.

markilux pergola compact

The pergola compact unites the graceful shape of the classic pergola with state-of-the-art product design and sophisticated technology. This compact, space-saving awning system on slender support posts and with lateral guide tracks, which always keep the cover taut, is ideal for smaller patios. The pergola compact invites you to linger and relax. Attractive and functional solar protection. Anywhere. For anyone.

Always in the best light

Highlight your patio with LED Spots attached to the cassette or LED Line in the cassette, on the guide tracks or in the light bar which will guarantee endless hours of pleasure outdoors – even long after the sun has set.

markilux sundrive

An integrated solar module can drive the shadeplus motor in the markilux pergola. When the awning is extended, the front profile and the guide tracks finish perfectly flush with one another.

Adjustable post

For better water drainage, the front post of the markilux pergola can be lowered in a flash between 20 and 40 cm depending on the size. On request with a hard-wired motor.

LED Line

Light for reading or informal get-togethers, optionally in the guide tracks and /or in the light bar, turns your night into day.

Square posts

As an alternative to round posts, square ones fulfil the desire for clean straight lines.

Stabilisation boxes

Give your markilux pergola reliable stability when fitting the front posts to footings is not possible or desired.

Stainless steel crank handle

Set the adjustable posts at the desired height in no time at all. Optionally with a hard-wired motor.

LED Spots attached to the light bar

These spotlights will provide perfect contrast lighting in the evening hours. Pivoting and dimmable.

The markilux shadeplus

The vertical protection against sun and prying eyes – up to 230 cm in height – creates a private room outdoors with its own special ambience.

On request – that little bit more

From infrared heaters to atmosphere-creating lighting with LED Spots or Line: the markilux markant fulfils all your wishes as far as the creation of an al fresco oasis of relaxation goes.

Versatile in both form and function

As stand-alone unit or integrated into the existing architecture, the markilux markant makes a big impression in any situation. Detailed information is available from your markilux specialist dealer or at [markilux.com](https://www.markilux.com)

Make the rain **take a detour.**

markilux markant

The free-standing awning system markilux markant is protection against sun, wind and rain, that can be tailored to your precise requirements. The awning, integrated into the frame, lends the system a textile character, its fabrics making it possible to create the pleasant colour ambience you have in mind. The markant offers protection, security, freedom, an outstanding appearance and comfort in a purist design.

Your very own personal space in the open air

If you integrate vertical roller blinds and protection against wind and rain into the markilux markant, you can create your own room out in the open air.

markilux syncra uno

Two feet. One awning. No problem.

The markilux syncra uno proves itself a stable base even with just one "wing".

markilux syncra pergola

With the additional posts at the front and the tracfix lateral cover guidance system, this option offers particular advantages in terms of size and wind stability.

Detailed information

Detailed information about the markilux syncra is available from your markilux specialist dealer and at [markilux.com](https://www.markilux.com)

Awning system

depending on the model up to 60 m²,
as a coupled unit even larger

Arm technology

depends on the model

Options

depending on the awning model,
uno (only one awning/ pergola),
flex (with stabilisation boxes),
round or square posts,
lighting, infrared heaters,
base plate covers,
coupled awning

markilux syncra flex

The stabilisation boxes allow installation
without concrete foundations on site.

Allow them to stand on their own two feet.

markilux syncra

Generous shading right where you need it. That is the promise made by the markilux syncra. And one it keeps. As a single unit it will provide shade for up to 60 m²; as a coupled awning even larger areas are no problem.

This free-standing awning support system literally stands on its own two feet: two round or square posts and a massive cross beam ensure reliable stability. Depending on the requirement, one or two folding arm awnings or markilux pergolas can be attached to it. This awning system is either firmly anchored to the ground (“fix”) or installed using stabilisation boxes (“flex”).

No matter which variant you choose,
you can count on the markilux syncra.

When you need just that little bit more.

markilux construct

Situations can arise in which a standard model is not enough to meet your particular requirements. On just such occasions, system solutions are required. The awning system markilux construct is extremely versatile and flexible. Different modules are combined with different awning systems to create a veritable awning landscape. You don't have to make any compromises when it comes to size. You can choose between round and square posts and the range of available accessories is impressive. It is almost impossible to describe the markilux construct: you simply have to experience it in yourself.

Awning system

almost unlimited thanks to the modular and flexible frame system

Options

depending on the awning model, vertical cassette roller blinds, wind protection and extra privacy at the front and the sides, panoramic window, round or square posts, lighting, infrared heaters, base plate covers

Designer awnings to your own exact specification

Different conservatory and folding-arm awnings are possible and can be combined with vertical roller blinds or side screens according to your precise wishes.

markilux visutex collection 50/4/me

Inspiration drawn from fashion, architecture, colour and naturally occurring special effects. 50 innovative fabrics conjure up your very own awning heaven in the tried and tested qualities sunsilk and sunvas – available exclusively from markilux.

markilux awning covers.

The most beautiful fabric between heaven and earth.

Our unique covers help to create a special ambience

The colour and quality of the awning fabric are what turn the ambience on your patio into something special. Depending on the brightness and hue, colour distinction, patterns and textures succeed in creating the desired effect. As a leading manufacturer of high-grade awning covers with 100 years of experience in the design and production of textiles, markilux offers an unparalleled variety. The markilux textile design team is constantly developing new patterns in line with the latest trends, which are nevertheless characterised by their timeless appeal. Among the more than 250 patterns in thematically coordinated colour families, you are certain to find your very own and most beautiful fabric between heaven and earth.

markilux awning cover finder

The most beautiful fabric for your designer awning can be found amongst the more than 250 cover patterns at the showroom of your markilux specialist dealer and at markilux.com

Functionality can be so beautiful

During the production of our awning fabrics, we leave nothing to chance. We add a final finishing flourish to the fabric with a special formula developed in house. This finish gives our awning covers incredible longevity and resistance to rain, light and fluctuations in temperature. Certified in accordance with Oeko-Tex standard 100, markilux awning covers are guaranteed free from harmful dyes and chemicals.

With an Ultraviolet Protection Factor (UPF) of 50+, all solid markilux awning covers made from sunsilk or sunvas offer the highest possible degree of UV protection for fabrics. Your skin's own protection factor is enhanced by a factor of more than 50. This allows you to enjoy sunny days for longer, without risk.

Self-cleaning effect

Water droplets pick up dirt particles and run off the awning cover taking the dirt with them (the awning must be set at a pitch of at least 14 degrees), ensuring you can enjoy your beautiful fabric for a long time to come.

Bonded awning covers

Panel joints bonded together ultrasonically ensure a consistent, unobtrusive appearance. The excellent resistance to water, light and fluctuations in temperature ensures that the service life of the cover is extended substantially.

Light and weather resistance and resistance to fading

High-tech yarns dyed right to the core and a high-grade finish developed in house guarantee the most stunning shade in which to relax.

The most beautiful fabric between heaven and earth

Made in Germany. Made by markilux. All awning fabrics are developed, manufactured and tested in our own facility in Germany. All the fabric patterns in the collection can be admired at [markilux.com](https://www.markilux.com)

markilux awning colours

The awning frame colour complements and enhances the colour of the fabric and creates a perfect link to the architectural surroundings. From a variety of shades of white through to the timelessly elegant anthracite, a broad range of colours is available to you. And if you want to create your own particular colour scheme? No problem! We will gladly manufacture your dream awning in your own personal shade.

Our high-grade powder coating finish is guaranteed for any awning colour you choose.

Matching every architectural style and customer demand

All markilux awning colours are available without surcharge.*
Non-standard colours can be selected on request.

* markilux 1300: only available in traffic white RAL 9016 and metallic aluminium RAL 9006

Beauty lies not in size
but in attention to detail.

markilux

Ease of use | Options | Extras

markilux ease of use. Make it easy on yourself, and convenient.

Meeting the highest demands and any weather conditions

The choice is yours: manual operation (servo-assisted on request), hard-wired motor or radio-controlled motor with remote control are all possible on most models. Or even better still, why not put your feet up and add light, wind and rain sensors to provide automatic intelligent control of your markilux designer awning or blind? You can even operate the system while you are away via smartphone or tablet.

Your markilux specialist dealer is at your disposal, should you have any questions regarding the operation of your markilux and will provide you with details on why awning motors with the markilux silentec technology are more popular than ever.

Availability depends on the model

Smart control

Arrange your own personal patio atmosphere by controlling the awning, the lighting, heating and lots more using the io technology offered by your smartphone or tablet – whether you are relaxing on your patio or away from home.

markilux remote control

Comfort can be so easy. Awning, shadeplus, light and warmth, all at the touch of a button.

silentec motor

Deafeningly quiet. Considerably reduces the noise the motor makes when extending and retracting the awning. Availability depends on the model.

markilux vibrabox

Intelligent, sensitive and independent of the mains. The vibrabox is an inertia sensor and, depending on wind load, retracts the awning.

Light and wind sensor

According to the prevailing weather conditions, this intelligent control system will extend and retract your awning automatically.

Light sensor

Intelligent control of your blind or awning according to the intensity of the sun's rays. Independent of the mains thanks to solar cell technology.

Rain sensor

The awning retracts automatically in the case of precipitation. This intelligent control mechanism protects the cover on your awning.

LED Line in the cassette

Appealing, ambient light in the form of an LED Line integrated into the cassette. Reserved and understated during the day. Dazzlingly beautiful and cosy in the evening.

LED Spots

Under the cassette or in the front profile: LED Spots that can be pivoted and dimmed create a lovely atmosphere on your patio in the evening.

stretch

The perfect solution for narrow patios, recesses or balconies. Thanks to the two crossover arms even awnings in a narrow width can extend further.

Wall sealing profile

This slim aluminium profile closes the gap between the awning and the wall, allowing the rain to be discreetly drained off the awning.

Polished chrome fittings

Stylish end caps and end cap inserts in polished chrome are eye-catchers and turn your awning into personal, individualised protection against the sun.

Colour variants and combinations

Cassettes and front profile panels are available in attractive colours and can be combined at will.

Coupled awning

Connecting two or more awnings together and operating them simultaneously offers even more shade. In folding-arm awnings, a special roller blind elegantly closes the gap between the two awnings.

The markilux shadeplus

Simply shut out the low-lying sun and the glances of inquisitive neighbours and enjoy the warmth of the day for even longer. An additional blind cover is lowered vertically downwards from the front profile to create a wonderfully private room outdoors. Depending on the model, it is also available with a hard-wired / radio-controlled motor.

Availability depends on the model

markilux options. More freedom. More free space.

An awning like no other

Your markilux designer awning, individually configured and tailored to your own personal and individual desires and preferences. Not a standard product, but perfect protection against the sun with a personal touch. Unique and special.

markilux arm technology. The tension is rising.

Highly durable, virtually noiseless and perfectly placed to provide optimum cover tautness.

Twin round steel-link chains

On the market for decades and proven in all types of weather: the twin round steel-link chains lie protected in the folding arms.

Availability depends on the model

Bionic tendon

markilux developed the bionic tendon from high-tech fibres, and used nature as its inspiration to create optimum power transference as well as friction-free and virtually noiseless folding of the arms. The safety and durability of the arms also impressed when it achieved more than 50,000 arm flexions in independent tests.

markilux extras. A relaxed al fresco lifestyle.

You too will be impressed

The numerous markilux options and extras available set new standards when stylishly shading your favourite spot in the garden. Detailed information and professional advice is available from your local markilux specialist dealer or at markilux.com

markilux infrared heater

Feel the warmth in an instant and enjoy the evening outside for even longer. Either as stand-alone unit (1400 Watt) or installed under your awning (2500 Watt, the latter optionally dimmable in three stages).

markilux LED Spotline

The elegant light bar in a powder-coated aluminium housing, that can be fitted almost anywhere. The LED Spots can be tilted and swivelled. Available in two sizes: 180 cm with 3 spotlights and 300 cm with 5 spotlights.

A red-tinted photograph of a window frame. A diagonal bar is visible on the right side. At the bottom, there is a dark, leafy branch. The background is a solid red color.

A clear overview
opening up exciting prospects.
